Dear interested readers,

Vitamin preparations – restorative cordials - dietary supplements, these are now available in abundance. Therefore, it is important to get expert advice. This helps to form a clear concept that can be followed.

Some years ago, we decided to produce our own range of preparations. Not additional vitamin products or probiotics, but rather products with unique compositions. We also decided to produce “normal” mineral and vitamin preparations where their quality and/or absorption capacity are exceptional. Their uniqueness lies in the concept represented by the 3-pillar teachings of Biological Medicine, which forms the basis of the treatments of all my patients. Dr. Rau’s preparations are formulated based on this concept of biological treatments. For each of these “pillars” we have specific preparations that combine to improve the inner milieu and the metabolism of people.

- Detoxification of the body down to every cell of the body
- Improve the intestinal system and the microbiome - and thus the immune system
- Building new, better cells affecting the whole body – this means fundamental regeneration

Treat the root causes and not just the symptoms

We provide you with highly effective products of a high quality standard, all fully natural extracts and concentrations. Dr. Rau’s products are only produced by internationally present, high quality producers and they follow strict biomedical criteria.

highest quality - effective concentrations - trusted manufacturers

The preparations can be combined with each other, even though in the treatment concept individual preparations are assigned to the 3 pillars. These are not medicaments in the pharmaceutical sense, but rather they are considered as “food”. Therefore, we do not give any promises of efficacy, although a regular intake may result in a positive influence on the body systems and processes, including the metabolism.

Our products rebalance today’s multiple nutritional deficiencies. B vitamins, especially B12, zinc and selenium, help to care for the intestines and thus reduce inflammation allowing for the safe removal of toxic substances. Vitamin C and turmeric support the immune system and viral propagation is inhibited.

When the body benefits from support in this way, it can again regulate many things itself and the self-healing powers are strengthened. That is the difference to the “non-root cause orientated” treatment.

ROOT CAUSE TREATMENT – Dr. Rau’s products functionally support your self-healing powers, just as needed by YOUR cells.

Kind regards,
Dr. Thomas Rau

and learn
more

The EM ferment is obtained from various herbs and plants, through the unique manufacturing process of multi-stage fermentation. In addition to the 31 different effective microorganisms (EM) Dr. Rau's EM ferment contains vitamin C and OPC and is a source of dextrorotatory L-(+) lactic acid!

It contains a fermented concentrate of 26 different herb and plant, which are fermented with many micronutrients (vitamins, trace elements, etc.) and enriched with 31 different lactic acid bacterial cultures.

In addition to the bacterial cultures and the fermented herbs and plants mixture, the EM ferment contains water, dextrorotatory lactic acid, L-ascorbic acid and a grape seed extract rich in OPC.

Thanks to Vitamin C it contributes to the protection of cells from oxidative stress, normal energy metabolism and normal functioning of the immune system.

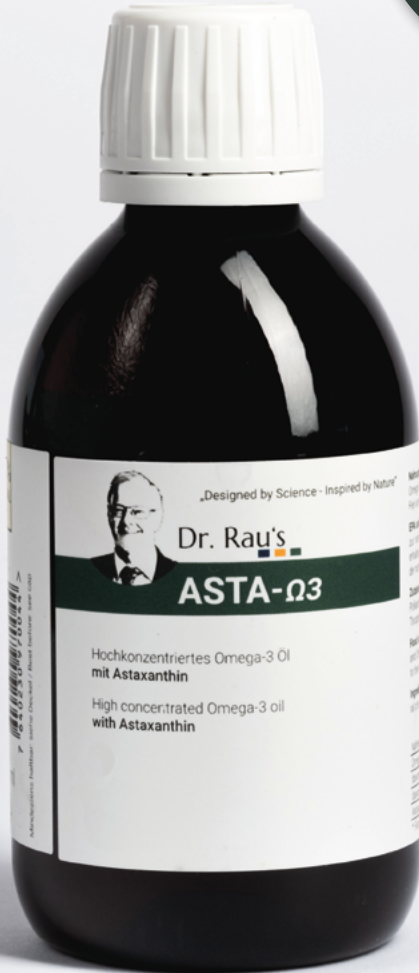

Bacterial cultures

Bacillus subtilis, Bifidobacterium: bifidum, breve, longum, infantis, lactis, lactis 02; Enterococcus faecium, Lactobacillus: acidophilus, amylolyticus, amylovorus, bulgaricus, casei 01, casei 02, casei 03, crispatus, delbrückii, farraginis, gasseri, helveticus, johnsonii, paracasei, parafarraginis, plantarum, reuteri, rhamnosus, salivarius, zae; Lactococcus: diacetylactis, lactis; Streptococcus thermophilus.

suitable for children

without heavy metals,
dioxins and PCBs

Dr. Rau's ASTA-Ω3

Food supplement with highly concentrated omega-3 oil and astaxanthin

Scan
QR code
and learn
more

The tasteless fish oil contains a high proportion of the omega-3 fatty acids EPA and DHA.

The fish oil, from sustainable fisheries in Norway, has astaxanthin additionally added.

Omega-3 fatty acids are essential for the human body, but cannot be produced by the body itself. The physiologically active carotenoid astaxanthin is responsible for the reddish color of the fish oil.

EPA and DHA contribute to normal heart function and the maintenance of normal brain function and vision.

10 ml (= 1 tbsp.) contains:

2750 mg	Omega-3	fatty
<hr/>		
1150 mg	EPA	
<hr/>		
1000 mg	DPA	
<hr/>		
1 mg	astaxanthin

and learn
more*

CELL immuno contains 7 different strains of lactic acid bacterial cultures. These are considered physiologically beneficial when taken in addition to a balanced and varied diet.

It contributes to normal functioning of the immune system thanks to vitamin D, thus strengthening the body's defenses. In addition, CELL immuno contains 7 different strains of bacteria.

It supplies the body with lactic acid bacteria and is suitable for lacto-vegetarians.

A special stomach acid resistant capsule shell made of vegetable material (HPMC) without gelatin is used. Thus, the valuable components in CELL immuno remain intact during the journey through the stomach and are released only in the intestine.

Dr. Rau's EVELIZA

Food supplement with essential amino acids - gluten free

*Scan
QR code
and learn
more*

EVELIZA is made from gluten-free plants. The extracts of the plants used are combined in their ratio so as to contain the 8 essential amino acids.

It is made exclusively from organically cultivated plants, which grow on the farm of Dr. Vargas in Ecuador and are dried on lava plates directly in the sun.

The plants grow on the slopes of Ambato Mountain on pure lava soil at an altitude of 2800 - 3000 meters above sea level.

With vitamin D, magnesium, calcium, iron and copper, EVELIZA contributes to the following:

- *Normal muscle function*
- *Maintenance of normal bones*
- *Normal energy metabolism*
- *Reduction of fatigue*
- *Normal functions of the immune system*
- *Support in cell division*

with many

ingredients

Dr. Rau's NEURO sana

Food supplement with vitamin C, vitamin B12, vitamin E, quercetin, folic acid and beta-carotene

*Scan
QR code
and learn
more*

NEURO sana contains vitamins C, B12, E, folate (vitamin B9) and beta-carotene (provitamin A) in lipid form with increased bioavailability.

Folate, vitamin C and vitamin B12 contribute to normal immune system function, reduction of fatigue and tiredness, and normal mental function.

Vitamins C and E help protect cells from oxidative stress.

Folate and vitamins of the B12 group have a function in the process of cell division.

Vitamin A contributes to the maintenance of normal vision and mucous membranes.

Liposomal packaging in soy lecithin improves absorption.

division

Dr. Rau's DNA RNA spray

Food supplement with vitamin B

*Scan
QR code
and learn
more*

DNA RNA spray is a natural product, thanks to vitamin B12 it has a function in cell division and vitamin B6 contributes to the regulation of hormone activity.

Cells lose their viability due to external influences such as environmental pollution, X-ray radiation or cigarette smoke, but also due to unhealthy lifestyle habits such as irregular diet, stress, low vitamin intake or too little physical activity.

Thanks to pantothenic acid, niacin, thiamine, vitamin B12 and B6, Dr. Rau's DNA RNA spray contributes to the following effects:

- *Normal mental performance*
- *Normal mental function*
- *Reduction of fatigue and tiredness*
- *Normal function of nervous system*
- *Maintenance of normal skin and mucous membranes*
- *Normal heart function*
- *Normal blood formation*
- *Normal function of the immune system*
- *Normal homocysteine metabolism*
